

Jane at Home

I am a California artist who has used my explosive colorist skills for the past forty years to alter the reality of my photography, pushing my art into a magical, optimistic world beyond a believable paradise.

Vivid colors, altered perspective, and changing common points of view are things I find unique and intriguing.

I welcome the viewer to my personal Wonderland with strong theatrical effects, abstractions, and classic compositions enhanced with saturated colors and my idyllic vision!

JANE GOTTLIEB

Sideway Self Portrait
